

ACCESS DURING ROAD MAINTENANCE

Between December 2023 and the end of October 2024, the City of Vienna will be carrying out highway maintenance work inside the Leonard-Bernstein Tunnel, which provides access to the Austria Center Vienna. Once complete, the scheduled maintenance measures will improve the quality of the road for motorists while also increasing safety. During this time drivers will be able to reach the

Austria Center Vienna ONLY via the northbound lane (Donau-City-Strasse access road and the „Kagran, Vienna International Center, Donau City“ exit from the A22). However, please note that it is NOT possible to access from the southbound lane as the left turn exit lane is permanently closed. Please make sure that you plan your route accordingly.

ACCESS BETWEEN DECEMBER 2023 AND THE END OF OCTOBER 2024
